Health System Impact Embedded Early Career Researcher Award: Budget Confirmation Form

Instructions: Provide the annual distribution of Salary Award and Research and Professional Development Allowance

Salary Award: The salary contribution from CIHR will be up to $70,000 per year including teaching release and fringe benefits. If the HSI Embedded ECR's salary exceeds this amount, all additional costs are to be borne by the host institutions (i.e., the health system organization and the university) and can be included in their matching fund requirement.

Research and Professional Development Allowance: A minimum of $30,000 per year will be allocated to research, knowledge mobilization and professional development related costs such as: embedded research costs, research coordinator/assistant costs, networking activities, knowledge mobilization, professional development related to the enriched core competencies

Reminder: Please refer to the funding opportunity for full details about research-related amounts that may be requested.

Also consider the following:

- The CIHR annual contribution is a **maximum** total of $100,000
- **Matching funds requirement:** Additionally, applicants must secure 1-1 matching, or $100,000 per annum, in partner contributions from their host health system organization and academic institution (the amount paid by each is not prescribed and will be determined independently of CIHR). This contribution must be outlined and confirmed at the time of application. **Note:** Of the $100,000 total partner contribution, at least $50,000 must be a **cash contribution** towards the applicant's salary and/or research and professional development allowance. The remaining amount, up to $50,000, may include **research-related** supports that directly benefit the applicant's research program such as: salaries for trainees, research assistants, administrative support and/or other research program personnel.

Note: The funding distribution indicated on this form will serve to populate CIHR Funding Decision documents and Funding Decisions Database.

Fill in the open boxes with a dollar amount, rounded to the nearest dollar, or a zero (0).
